ABOUT MAXWELL

Founded in 1992 by V. K. Gurumoorthy, an Electronics Engineer, Maxwell Centre for Industrial Training and Development has evolved into a trusted partner in industrial training and capability development.

What began with technical open house programs has grown into a comprehensive portfolio of training and consulting solutions catering to diverse manufacturing industries.

Maxwell delivers both open house workshops and customized in-company training programs, designed to address the evolving needs of modern industry and enhance organizational performance.

Industry-Focused Learning

Programs designed
to address real
industry challenges

Experienced Trainers

Learn from seasoned
professionals and
domain experts.

Customized Programs

Tailored solutions to meet
organizational goals
and training needs.

9001:2015
Certified Organization

Our commitment to quality and
continuous improvement drives
everything we do.

TRAINING CALENDAR

2026-2027

MAXWELL
Centre for Industrial Training & Development
33 Years of Trusted Training Excellence

Month / Training Programs	Soft & Behavioural Skills	Office Management/ Organizational Development	Cost & Financial Management	Technical Skills/ Production Planning Maintenance	Materials/ Industrial Safety Management
Apr-26	Leading with Ownership: Creating Accountable & Disciplined Teams	—	Quality Cost Analysis (COPQ): Turning Defects into Profitability Insights	- Industrial Hydraulics: Maintenance Strategies & Breakdown Prevention - Supplier Control and Supplier Audit Requirements - Finance for Non finance Managers	Integrated Management System (QMS - ISO 9001, 14001, 45001)
May-26	Cross-Functional Coordination Between Production , QA & Maintenance	—	Condition Monitoring & Failure Prevention of Electrical Equipment	- SPC Using Minitab: Statistical Control for Manufacturing Quality - Visual Factory & Visual Management: Building a World-Class Workplace - AI-Enabled Data-Driven Decision Making for Smart Manufacturing - Competency-Based Management (CBM): Aligning Skills to Business Goals	—
Jun-26	Managerial Effectiveness for Plant & Operations Leaders	Excel & Data Analysis for Manufacturing Reporting	—	- VDA 6.3 Process Audit & AIAG FMEA - Latest Edition Practitioner Program 8D Problem Solving: Resolving Customer Complaints & Internal Failures - Logistics & Supply Chain Optimisation for Manufacturing Competitiveness - Energy Management in Manufacturing Industries	—
Jul-26	Structured Problem Solving for Manufacturing Managers (A3 Thinking)	—	—	- Planned Maintenance Optimisation: Maximising Equipment Availability - Industry 4.0 & Smart Manufacturing (Practical for Managers) - APQP, PPAP & Control Plan: Practical Implementation Workshop - Zero-Defect Manufacturing using Poka - Yoke Techniques	Building Safety Culture through Behaviour - Based Safety (BBS)

TRAINING CALENDAR

2026-2027

Month / Training Programs	Soft & Behavioural Skills	Office Management/ Organizational Development	Cost & Financial Management	Technical Skills/ Production Planning Maintenance	Materials/ Industrial Safety Management
Aug-26	Time & Priority Management for Production Managers	—	Supplier Audit & Supplier Development for Manufacturing Excellence	- Industrial Pneumatics: Troubleshooting, Maintenance & Performance - Measurement System Analysis (MSA): Ensuring Reliable Quality Data - Strategic Goal Deployment & KPI-KAI Alignment (Hoshin Kanri Framework)	Electrical Safety and Risk Prevention in Industrial Operations
Sep-26	Influencing without Authority in Manufacturing Environment	—	Cost Reduction through Value Engineering in Maunfacturing	- Autonomous Maintenance in Assembly Lines: AM Step-by-Step Implementation - Design of Experiments (DOE) For Process Optimization - Microsoft Power Query & Power Pivot Mastery (Zero Formulas & Functions in Excel)	ISO 27001: Internal Quality Audit & Information Security Management
Oct-26	Enhancing Corporate Productivity for Competitiveness	Automating Manufacturing Workflows Using Power Automate	—	- Lean Implementation for Productivity Improvement in Manufacturing - Stores & Inventory Management: Cost Reduction & Space Optimisation - Structured Problem Solving: A3 Thinking & FMEA Integration - Low-Cost Automation Using PLC: Hands-On Practical Application	—
Nov-26	Training the Trainer: Building Internal Capability Champions	ESG Strategy & Sustainable Manufacturing Practices	—	- Predictive Maintenance using Data Analytics - GD&T: Geometric Dimensioning & Tolerancing in Manufacturing & Inspection 7 QC Tools: Data-Driven Quality Problem Solving	Risk - Based Safety Management for Manufacturing Plants

TRAINING CALENDAR

2026-2027

Month / Training Programs	Soft & Behavioural Skills	Office Management/ Organizational Development	Cost & Financial Management	Technical Skills/ Production Planning Maintenance	Materials/ Industrial Safety Management
Dec-26	Managing Shopfloor Pressure and Workforce Behaviour	—	Energy Cost Reduction & Strategic Energy Management in Manufacturing	- Quality Function Deployment (QFD): Voice of Customer to Process Design - Design of Jigs & Fixtures for Manufacturing Efficiency - Total Quality Management (TQM): Principles, Culture & Best Practices - Data Analysis Made Easy with Google Sheets	—
Jan-27	Leading Experienced Workforce: Engaging Senior Talent Effectively	—	Practical Cost Reduction Strategies for Manufacturing Operation	- CNC Programming & Machining Fundamentals: Precision Manufacturing Skills - Toyota Production System (TPS) & Lean Manufacturing Practices - AI for HR: Transforming Talent Management & People Analytics - Metallurgy for Engineers: Diagnosing & Resolving Casting Defects	—
Feb-27	First Time Line Leader Capability Building	Real -Time Production Dashboards Using Power BI	—	- Industrial Robotics: Smart Applications in Advanced Manufacturing - Customer-Centric Innovation: Design Thinking for Manufacturing Teams - Effective Budget Planning & Operational Cost Control for Manufacturers - Improving OEE & Equipment Real	—
Mar-27	Supervisory Development Program	—	Strategic Procurement: Cost Optimisation & Supplier Partnership Models	- Design for Manufacturing & Assembly (DFMA): Reducing Cost by Design - Cyber Security Awareness for Manufacturing & Industrial Automation - Reliability Engineering & Predictive Maintenance (Advanced Practitioner)	Industrial Safety Management: Best Practices & Legal Compliance

“Developing People. Strengthening Processes. Driving Industrial Excellence.”

–Maxwell Centre for Industrial Training & Development

TRAINING PROGRAM GROWTH OVER THE YEARS

Number of Programs

From 1,043 programs in 2016–17 to 1,042 programs in 2025–26, Maxwell continues to strengthen industrial capability through consistent training initiatives across India and overseas.
